## Welcome ... to our seventh annual ram sale

Having a highly fertile sheep flock bred specifically for its suitability for and ability to thrive in our Australian climate is a distinct advantage as our industry experiences challenging times.

A breeding ewe flock cutting volumes of high quality wool who also produces early maturing wether lambs suited to the store market or finishing to sell directly to abattoirs at around 10 months of age creates a variety of opportunities.

We know our sheep perform: it's a combination of genetics and management. They will deliver multiple income streams from surplus sheep sales, meat, and wool, minimising the risk of relying on one commodity. Understanding what's important for your business enables you to develop your own breeding objectives.

We also believe in listening to the needs of consumers, who are demanding greater transparency with regard to the production of food an fibre. With minimal modification and chemical intervention our sheep produce boldcrimping, long stapled white wool with high tensile strength. All the sheep we present to you today meet our breeding objectives and we know they can also perform for you. We go to great lengths to collect reliable data which is rapidly increasing both in accuracy and percentile band performance. In 2023 we have tagged almost 1,500 lambs at birth, recording their date of birth, weight, birth status and the maternal score of their dams.

Our promise is that these rams are from the same genetics that make up our own commercial breeding program and they can provide you with an opportunity to run a flock with high productivity and meet dual purpose market opportunities.

Thank you for joining us at Aloeburn today and for your confidence in our sheep.

With our very best wishes to you.

Andrew, Jodie & Tom

Get the Aloeburn advantage!

## SALE INFORMATION

- Vendor: Andrew, Jodie & Tom Green Aloeburn Pastoral Co "Aloeburn", 220 Gilmours Lane, Boree Creek, NSW, 2652 A: 0448 132 035 J: 0448 132 432
- **Inspection:** Sale inspections are invited from 10.00am on sale day.
  - Auction: The sale will commence at 1.00pm. Sale of rams will be conducted in an Open Cry auction.
    - **GST:** The sale will be conducted as GST exclusive. GST will be added to the purchase price prior to invoicing.
  - **Payment:** All purchases will be invoiced through Elders and payment to be made electronically to Elders' nominated account details.

Health: Aloeburn Poll Merinos are brucellosis accredited - Certificate 76599 / Accreditation OB-TR All rams have been vaccinated with Gudair at marking (prior to 8 weeks of age).
Aloeburn flock status for OJD is Approved Vaccinates.
All rams have been vaccinated with Glanvac 6:1 at marking, weaning and in May 2023.
All rams were vaccinated with Scabiguard at marking.
All rams were drenched with Triguard at weaning and May 2023.
All rams were treated with Extinosad Pour On May 2023.
Aloeburn is a foot rot free property.

- Shearing: Rams were shorn as lambs 7/11/2022
   Second shearing 8/5/2023, at that shearing mid side samples were collected for fleece testing when all rams had 6 months fleece growth.
   All rams were crutched 20/8/2023.
   Rams are presented at sale (25/9/23) with 4.5 months fleece growth.
- **Fertility:** Rams have been inspected at classing and are guaranteed to work.
- **Guarantee:** If in the next 6 months a ram becomes infertile or incapable of work, provided it is not from injury or disease contracted after it has left our possession, then we will offer a suitable replacement. Any claim must be accompanied by a relevant veterinary certificate.
- **Disclaimer:** While all due care and attention has been paid to accuracy in the compilation of this catalogue, neither the vendors, the selling agents or representatives thereof assume any responsibility whatsoever for the correctness, use or interpretation of the information on animals included.
  - **Rebate:** A rebate of 2% will be allowed to outside agents in attendance.
  - **Catering:** Please join us for a light lunch prior to the sale and for a drink afterwards.

### Glossary of terms and sale team average -v- industry average for traits

(Data at analysis date 21/8/23)

| SMHR  | Sustainable merino high rainfall index        | 140.05                        | 137.69              |
| ML    | Maternal + lamb index                         | 136.59                        | 130.26              |

During 2023 Sheep Genetics introduced FIVE new research breeding indexes. Two of them: SMHR and ML are relevant to the breeding objectives of Aloeburn.

#### Sustainable Merino High Rainfall (SMHR)

- SMHR index is based on a production system where the majority of income is from sheep meat production but there is still a large focus on wool clip and quality.
- SMHR focuses on genetic improvement of fleece weight, fibre diameter and reproduction. A focus has also been placed on reducing wrinkle, worm egg count, and dag for a high rainfall environment and increasing growth and lean meat yield.

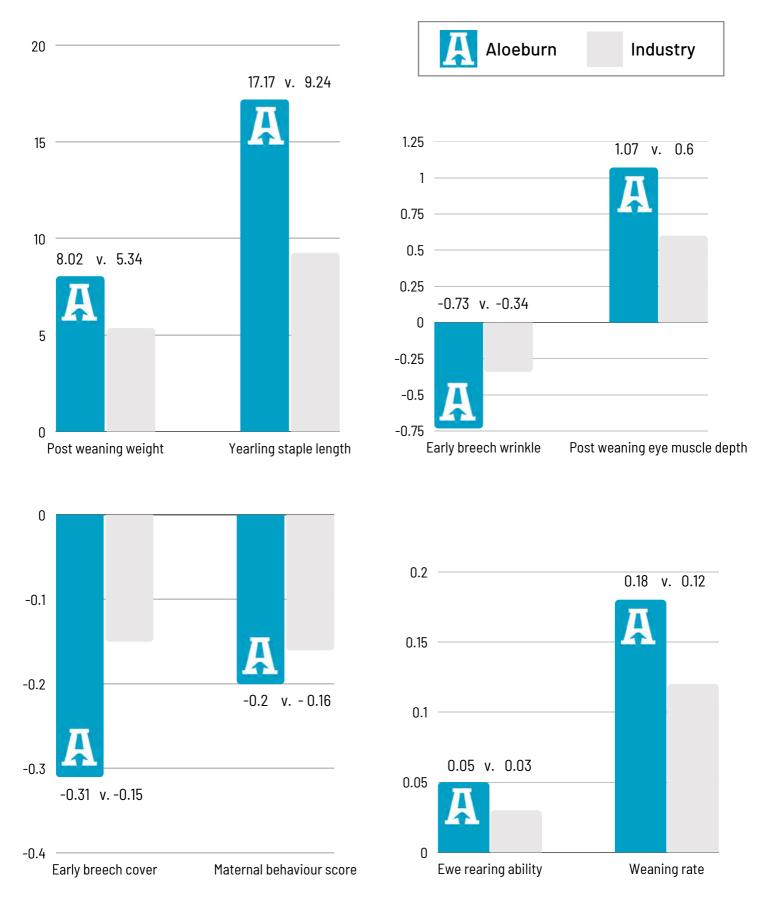

#### Maternal + Lamb (ML)

- ML is based on a production system where the majority of income is from sheep meat production.
- ML focuses on genetic improvement of fleece weight, growth, lean meat yield and reproduction. A focus has also been placed on reducing wrinkle.

More information about these new indexes can be found at <u>www.sheepgenetics.org.au/research-indexes</u>

## Sale team average -v- industry average for selected ASBVs

Here is how our sale rams averages perform against industry averages for eight ASBVs that are key to our breeding program.

The full suite of ASBV's for all our rams can be viewed on the Sheep Genetics website: <u>https://search.sheepgenetics.org.au/catalogue/sales/10294?db=5&user=0&scenario=7</u>

## Sire details

Sires with only a 6 digit ID (ie, no letter prefix) were born at Aloeburn.

# Joining early this year? Want more lambs, more time and more money in your pocket?

Regulin is a small melatonin implant that improves early joining performance by 20%\* by switching on the axis of reproduction that wouldn't normally occur until Autumn. It's that simple.

Whether you're restocking after drought or flood, needing more lambs to offset falling prices, taking advantage of available feed or increasing selection pressure in your stud; more lambs on the ground means more money in your pocket.

Find out if you're ready for Regulin at regulin.com.au (scan QR code) OR

Call 1300 6 999 18 to arrange a FREE consultation with a local Regulin Reproduction Representative.

\*Average increase in paddock and research trials. Regulin® is licensed for use in ewes and rams in Australia by Ceva Animal Health Pty Ltd. 11 Moores Road, Glenorie NSW 2157 ACN 002 692 426
